MEDIATION BRIEFING

Registration of recognised refugees in I.E.K. with a solemn statement confirming possession of secondary school diploma

The Ombudsman examined a complaint by a recognised refugee regarding the difficulties he faced in enrolling at an Institute of Vocational Training (I.E.K.), due to his difficulty to produce a high school diploma, which is a prerequisite for enrolment.

The relevant General Secretariat took into account the Ombudsman's observations and informed orally that the person concerned will be allowed to enrol in I.E.K. by filing a solemn statement confirming possession of the diploma of graduation from secondary education, as it had been accepted ten years ago, in a similar case, by the Organisation for Vocational Education and Training (O.E.K.), under the supervision of which the IEKs of the country were at the time.
